

Jan Scholten

the plant kingdom

2 DAY SEMINAR | CORK | APRIL 21&22, 2018

Inspired homeopath and self professed researcher Jan Scholten is back in Ireland to present his new research on plant remedies.

In his new book 'Wonderful Plants', Jan demonstrates a precise and innovative way to prescribe remedies from the plant kingdom.

Like his work on the periodic system this method allows the homeopath greater scope in remedy selection.

Jan's discovery of the classification of minerals and plants has earned him international reputation and his seminars are well received all over the world.

Book your place now | seminars.remedies.ie | An unique opportunity
